REDINGTON

A woman with blonde hair and glasses, wearing a grey cardigan and a necklace, stands in a server room. She is gesturing with her right hand towards a server rack. She is holding a small card or device in her left hand. The background shows rows of server racks in a data center.

Public Cloud experience
with control and benefits
of on-premise IT

HPE Flexible Capacity

A **hybrid IT service** combining the **freedom of the public cloud** and the **security of on-premise IT**.

Why Choose HPE Flexible Capacity?

Save on costs due to over provisioning, **59% for compute** and **48% for storage**
With HPE Flexible Capacity, you can get the best of both worlds—on-premise and on-demand IT

Reduced Operational Cost

- No up-front payment
- Pay for what you use
- Optimize cash flows
- Eliminate the cost of over provisioning
- Align IT cost to business demand

Speed time to value

- Increase available capacity in minutes, not months
- Unlimited refreshed as it is used with simple change order
- Avoid long procurement process

Reduce Risk

- Improve IT delivery
- Able to react quickly to market demands
- Share utilization risk with HPE
- Free up IT staff to focus on innovation

Scale to the cloud

- Scale using certain Azure services
- One contract, one invoice, one usage portal
- HPE options to Monitor Manage & Support Azure services
